### Major Responsibilities

Promotes and supports public health to correctional institutions by providing a variety of nursing services such as providing direct care; initial assessments and ongoing assessments for appropriate care including reconciliation of current medications; documentation of all events germane to inmate care; interviewing inmates/residents to establish services needed including behavioral/mental health; establishing and maintaining data files and medical records; initiates trauma informed care and patient referral systems of care including but not limited to mental health. Provides nursing services in an institutional setting with comprehensive service delivery and full spectrum of care across adolescent and adult life cycles.

Institutional Nurses are responsible for working within their scope of practice, related to medical and nursing services, planning, and providing care to individuals who have a range of healthcare needs including mental/behavioral health issues. These nurses work as a part of a team of professional medical staff that provide care to emotionally disturbed and or mentally ill patients for behavioral health and mental health services. These nurses work closely with the clinical, corrections and case management staff to coordinate care and assist in treatment plans for clients and to perform related work at the most expeditious time to seek the best outcome for inmate health.

## Essential Functions

Under general supervision and/or as part of the Behavioral Health/Institutional Nursing team, performs the following functions within the framework of the Erie County Health Department and the Erie County Community Health Center's provision of the core functions and essential services of public health:

- Prioritizes care at night through completing a mental/medical health assessment and history. This facilitates the nurse to arrange for all levels of health care, mental health care and assures quality, accessible and timely services, and referrals to appropriate agencies to meet the needs of the inmate. This also supports stabilization of the mentally ill and prevents psychiatric deterioration in the jail setting.
- Plans and provides nursing care for inmates
- Initiates nursing diagnosis of the medial and emotional status of patients and recommends treatment options
- Consults with physician and other behavioral health staff and collaborates with corrections staff in designing appropriate treatment plans for inmates
- Arranges further medical attention when necessary, arranging support for inmates
- Assists the inmate in understanding the nature of emotional disturbances and accepting the need for treatment and combating the stigma of mental illnesses
- Encouraging inmates to take part in therapeutic activities
- Building relationships with reassuring, listening, and talking to mental health patients
- Assists in maintaining a safe and secure environment for staff and inmates
- Documents all patient information on medical charts and follows physician's written orders
- Maintains patient confidentiality
- Instructs/educates inmates on health care matters disease prevention and care of common health problems and mental health needs
- Reports to physician to obtain needed referrals to appropriate agencies and assist with linking inmate to those agencies for follow up
- Participates in the development and implementation of the plan of care
- Participates in continuing education programs and self-directed education to keep skills and knowledge current including the area of mental health by attending raining offered by the MHRB
- Prepares and maintains records and reports
- Assists and utilizes the nursing process to identify special mental and physical health care needs
- Collaborates with other staff to implement necessary care
- Acts as a health care advocate for individuals, families, and the community
- Interview internal and/or external customers to establish program-specific documentation and/or identify services that are needed
- Obtains and completes appropriate patient forms, ensures patient confidentiality, and maintains orderly medical records. Follows established public heath medical records policy and procedures as well as the State and Federal laws that govern the release of health care information
- Relates public health and mental health science skills to the core public health functions and ten essential services of public health
- Under general supervision prepares public health and behavioral health documents and reports
- Provides technical support to agency and MHRB activities related to development and implementation of community health assessment, mental health assessment planning program and policy development and implementation of activities
- Adheres to ethical principles in the collection maintenance use and dissemination of data and information
- Utilizes appropriate methods for interacting effectively and professionally with persons of all ages and from diverse cultural, socioeconomic, education and racial and ethnic backgrounds, sexual orientations lifestyles and physical and mental abilities
- Participates in agency and MHRB training and drills in support of preparedness consistent with job classification
- Assumes responsibility for own professional growth and development by pursuing education related to mental/behavioral health, participating in professional committees and work groups, and contributing to a work environment where continual improvements in the specialized practice are pursued
- Eases any concerns or distress inmate may exhibit
- Responds to questions with timely, accurate and complete information
