

## FOR IMMEDIATE RELEASE

### **Dr. Timothy Plank is looking to mentor the next generation of Erie County public health providers**

**SANDUSKY, OH, January 26, 2027** — In the world of modern medicine, where appointments are often rushed and symptoms are treated in isolation, Dr. Timothy Plank stands as a champion for a different approach known as Whole-Person Care.

As a Doctor of Osteopathic Medicine (DO) at the Erie County Health Department, Dr. Plank's philosophy is rooted in the belief that the body is an integrated system. For over 20 years, he has dedicated his career to public health, treating patients of all ages, from newborns to seniors, with a focus on the interconnectedness of physical, mental, and social well-being.

For Dr. Plank, public health is more than a clinical setting; it is a community mission. His tenure has been defined by a "patient-first" mentality that transcends the exam room.

"To me, every patient is a story, not a chart," says Dr. Plank. "True healing happens when we listen with our hearts as much as our stethoscopes. There is a special kind of joy in seeing a family grow and stay healthy together over the decades."

As Dr. Plank looks toward his eventual retirement, his focus has shifted to the future of the agency. He isn't just looking for a colleague; he is looking for a protégé. The Erie County Health Department is currently seeking a Provider Leader who is eager to learn the nuances of public health under Dr. Plank's seasoned mentorship.

This is a rare opportunity for a physician or advanced practitioner to inherit a wealth of knowledge in clinical leadership, community advocacy, and the "whole-person" philosophy that has become Dr. Plank's hallmark.

Health Commissioner Peter T. Schade emphasizes that the search for new providers is about maintaining the gold standard of care that the department is known for. "Quality of care is the foundation of everything we do, and that starts with providers who are truly committed to the public health mission. Finding the right person to learn from Dr. Plank is critical—we aren't just filling a position; we are securing the future of healthcare in Erie County."

The Erie County Health Department is offering a unique path for those ready to step into a leadership role within public health. This position provides direct, hands-on mentorship from Dr. Plank, allowing a new provider to absorb over two decades of clinical wisdom and community-based experience. Candidates will have the opportunity to provide continuity of care for a diverse, multi-generational patient base while practicing in a holistic environment that prioritizes the osteopathic "whole-person" approach. This is more than a clinical vacancy; it is a leadership track designed for a provider ready to shape the future of health in our region.
